# how to buy Xerium on DXSale

BNB

please double check which network you are on. Xerium is available on 3 networks, Ethereum, Binance & Tron. This screenshot here shows Xerium on BNB chain

step1: open the DX sale link on browser and click connect wallet

---

these links will work only on desktop

these links will show error and will load forever. DO NOT CLICK THIS LINK
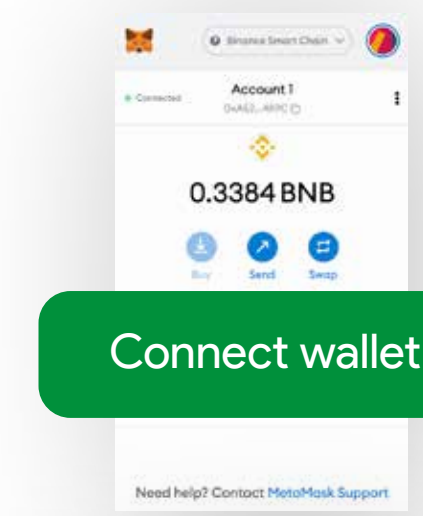

CLICK THIS. THIS IS THE CORRECT LINK.

these links will show error and will load forever. DO NOT CLICK THIS LINK

step2: Since you are on BNB network of Xerium, Click Wallet connect (BSC)

---

step3: Choose the wallet of your wish, and this will open the wallet app on your smartphone.
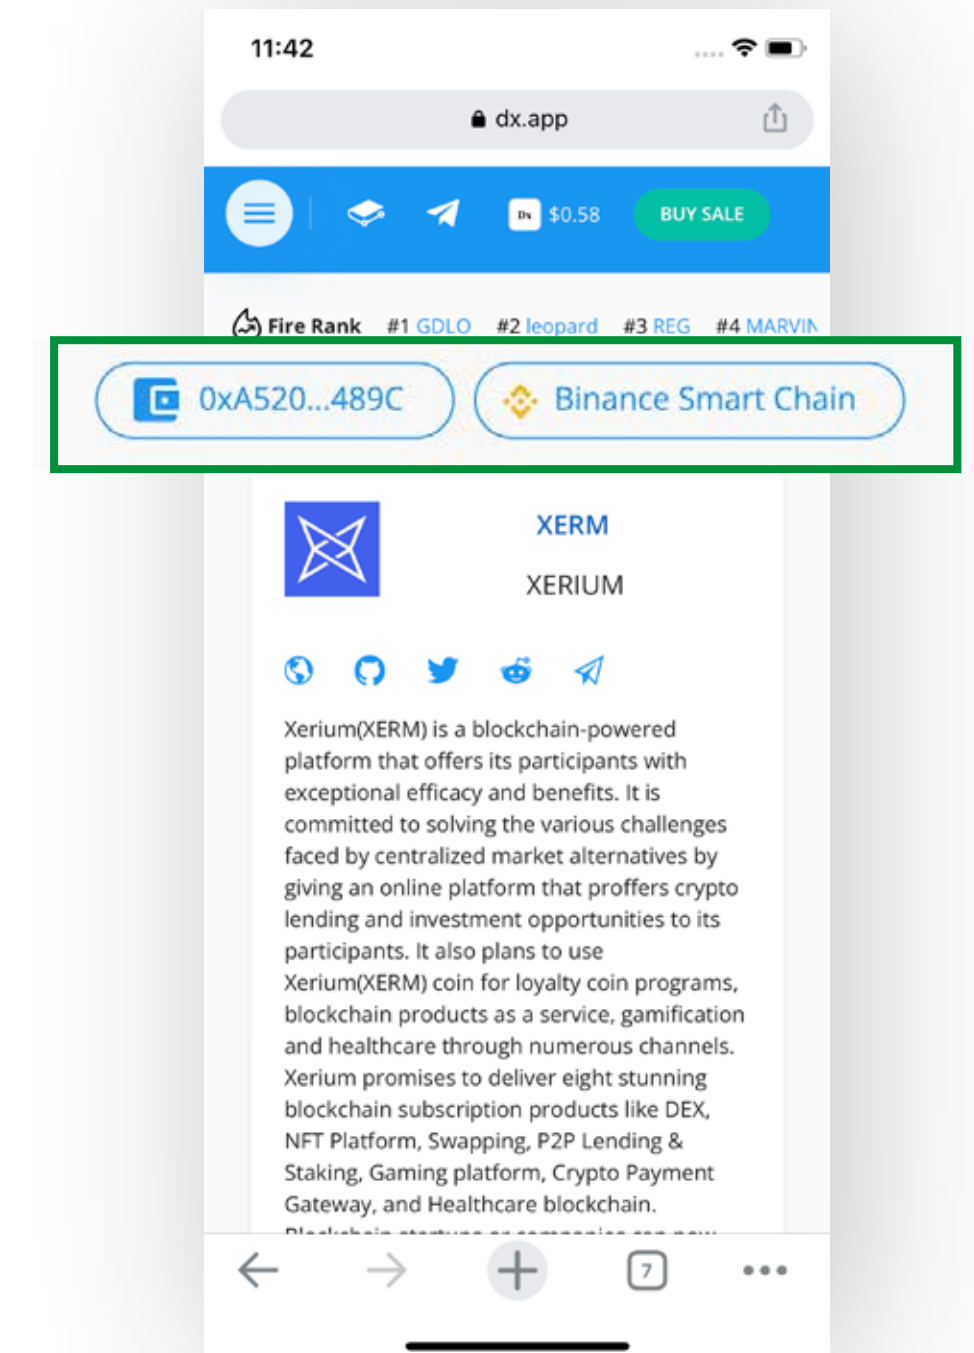

---

step4: Once the wallet is open. Please proceed with suggested steps and connect your wallet
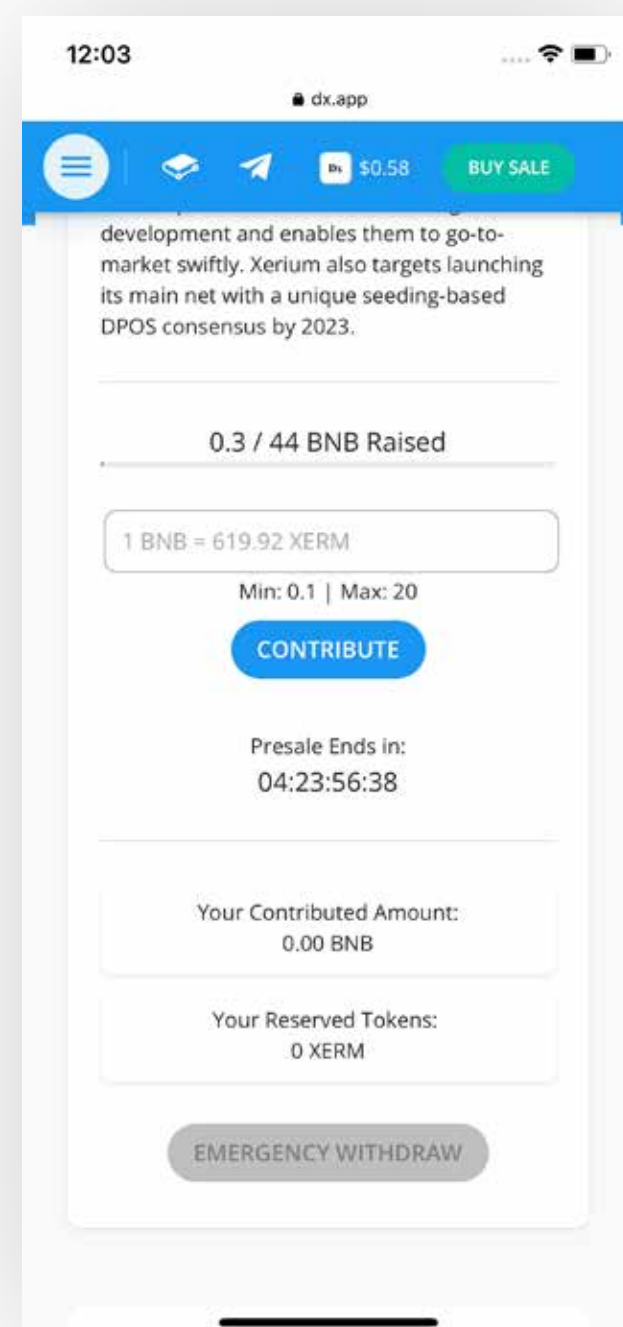

Make sure your wallet is running on Binance Smart Chain (BSC) and not any other network like ETH or so. This is because you are trying to buy Xerium on BSC. Pls make sure you have enough balance in your wallet to purchase Xerium
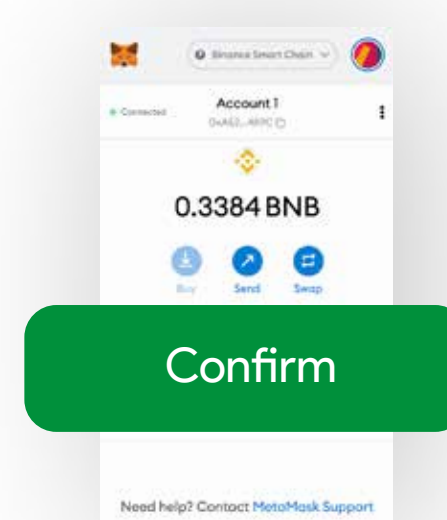

By mistake if you connect any other network, your DXsale link will keep loading forever.

---

step5: Once your wallet is connected, come back to your browser and you will see your wallet ID and Binance smart chain on the browser link

---

step6: Now, proceed to the contribute section, enter the amount you want to purchase for and click contribute

---

step7: You will now be taken to the wallet to confirm. Click confirm and that's it. You have successfully
